

1/019T 1/0 AWG Concentric Tinned Copper Conductor

DESCRIPTION

- 19 Strand concentric tinned copper conductor
- Cross-sectional area of 105,600 circular mills
- Outside diameter of approximately 0.373"
- Finished weight of 325 pounds per 1,000 feet
- Conforms to the requirements of ASTM B-3, ASTM B-33 & ASTM B-787

APPLICATIONS

- Used for grounding electrical systems where high conductivity and some flexibility is required.
