

NUWTubeR

New tube design keeps weld metals separate until ready to use

DESCRIPTION

- Dual chamber design holds starting material and weld metal separately, in the same tube
- Color coded caps identify materials:

Clear = weld metal, **Orange** = starting material

- Available for all weld metal sizes – NUWTube 15 through NUWTube 250
- Eco-friendly recyclable outer packaging
- Suitable for rail applications

APPLICATION

- Keeps weld materials separate prior to use for superior connections
- Rail connections
